CAREER OBJECTIVE

Computer Science student interested in software development and machine learning. Looking for opportunities to apply programming and problem-solving skills in real-world projects.

EDUCATION

B.Tech Computer Science and Engineering

XYZ Engineering College

2023 – 2027

SKILL SET

Python

Java

C++

SQL

Machine Learning

Git

HTML

ReactJS

PROJECTS

Student Management System

Developed a student management application using Python and SQL. Implemented student registration, record management and search functionality.

Machine Learning Prediction System

Built a basic machine learning model using Python and Scikit-learn to perform prediction on a structured dataset.

INTERNSHIP

ABC Technologies

Software Development Intern

June 2025 – July 2025

Worked with Python and SQL. Assisted in data processing and application development.

CERTIFICATIONS

Python Programming Certification

SQL Fundamentals Certification

ACHIEVEMENTS

Participated in an inter-college coding competition.
